Just Like Them All

Someone on BlueSky just informed me that the sick narcissistic abuser Thomas Wayne Randle has made a fictitious Facebook account under the name Patricia Dumas claiming that she died last year.

There is no death certificate registered.

She hasn't used that name in 30 years, and everyone calls her Patty.

Her 'niece' is reported to 'confirm' this.

Not either of her two daughters or grandchildren.

This is a sick domestic abuser exhibiting all the horrific traits recounted on domestic abuse sites that ended in murder.

The police won't do anything.

Please, anyone, we need help. She needs help.

Before he does kill her.
